LAKE COMO SCHOOL OF ADVANCED STUDIES

Method: In this school we will explore FOOD ITEMS through the innovative approaches of Object-Based Learning (OBL), born for the study of objects from art and collections but recently extended to other fields in science and medicine.

Students: the summer school is directed to PhD students, post docs, teachers, young researchers in academy and industry from any area related to food: food science & technology, nutrition, marketing, economy, art & culture, humanities, design, communication. Maximum 30 seats are available.

Teachers: experts from academy, industry and communication will teach lectures and laboratories with the students. Full list of invited speakers is available at <https://foodit.lakecomoschool.org/>

**Registration is open, join now!
(early bird deadline March 31st)**

Detailed program, info for registration and accomodation available at:
<https://foodit.lakecomoschool.org/>
